

## Position: Solution Architect Director (Data Science & AI/ML)

Bangalore, Karnataka

FACTSPAN

### Factspan Overview:

Factspan is a pure play data and analytics services organization. We partner with fortune 500 enterprises to build an analytics center of excellence, generating insights and solutions from raw data to solve business challenges, make strategic recommendations and implement new processes that help them succeed. With offices in Seattle, Washington and Bangalore, India; we use a global delivery model to service our customers. Our customers include industry leaders from Retail, Financial Services, Hospitality, and technology sectors.

### Job Description:

- Engage with potential clients to understand their data science & analytics needs and challenges, acting as a trusted advisor
- Craft innovative data science and AI solutions that address client's needs
- Design end-to-end AI/ML and advanced analytics architectures
- Create compelling proposals and presentations that communicate our value proposition effectively
- Present solutions to C-level executives and technical stakeholders, articulating business value and technical feasibility
- Stay informed about emerging trends in AI/ML, deep learning, cloud computing, and modern data architectures to influence solution strategy
- Partner with Product engineering, and delivery teams to ensure alignment between solutions and execution capabilities
- Develop reusable frameworks, accelerators, best practices and participate in thought leadership activities

### Qualifications & Experience:

- 14+ years of experience in data science, AI/ML or enterprise analytics, with at least 5 years in solution architecture role
- Proven expertise in designing and architecting AI/ML and data science solutions across modern cloud platforms (AWS, Azure, GCP) and big data ecosystems
- Hands-on knowledge of AI/ML frameworks (TensorFlow, PyTorch, Scikit-learn), data science platforms (Databricks, Snowflake, SageMaker), and data visualization tools
- Strong understanding of MLOps, model governance, data governance, security, and compliance considerations
- Excellent communication and presentation skills, with the ability to engage both technical and non-technical audiences
- Strong problem-solving and adaptability skills with an ability to work independently and as part of a team

### Behavioral Skills:

- Take ownership and accountability of outcomes, ensuring successful solution delivery and client satisfaction
- Exhibit excellent written and verbal communication skills, effectively conveying complex information
- Demonstrate strong problem-solving abilities, addressing challenges with innovative solutions
- Foster a collaborative team environment and show self-driven initiative to achieve goals

If you are passionate about leading teams to deliver impactful data science, AI/ML or analytics solutions, possess strong technical and consulting expertise, and are committed to achieving exceptional client satisfaction, we encourage you to apply for this exciting opportunity. Join us in driving innovation and delivering value to our clients through data-driven insights and solutions.

### Why Should You Apply?

**Grow with Us:** Be part of a hyper-growth startup with ample opportunities to Learn & Innovate.

**People:** Join hands with the talent-ed, warm, collaborative team and highly accomplished leadership.

**Buoyant Culture:** Embark on an exciting journey with a team that innovates solutions everyday, tackles challenges head-on and crafts a vibrant work environment.
